SERVICE

WHY US

TRUST + REPUTATION

We build positive, long-term relationships with our clients based on honesty and respect underpinned by a solid market reputation.

TEAM + CAPABILITY

Our team has significant industry experience and a history of successfully delivering infrastructure projects.

VALUE-ADD

We strongly emphasise providing cost-effective and value for money engineering solutions and meeting client deadlines without compromising safety or quality.

SOLUTIONS

We provide turn-key solutions for all Engineering Services through a core network of highly skilled and experienced Engineers and Technicians.

QUALITY + SYSTEMS

We utilise modern technology and software with an advanced level of systems that are third party certified under ISO 9001 Quality, ISO 45001 OH&S, and ISO 14001 Environmental.

HOW CAN WE HELP

AD Design & Consulting provide a range of services from preliminary investigation to managing detailed design, project award and construction of multi-disciplinary projects.

CORE CAPABILITIES

- > Infrastructure Design + Delivery
- > Project Management
- > Stormwater Management
- > Project Feasibility

We consistently achieve cost-saving solutions by working proactively with clients, stakeholders, and governing bodies, from concept development to design and final project delivery.

(Detailed list of services over the page).
